

#### ARBO® FR-RS Fire Tape

A high quality elastomeric modified butyl tape. The tape has a B-S1-D0 fire classification and creates an airtight and fire-safe detailing around the window and door frames.

For ease of installation it comes with split liner, which is positioned 30mm from the edge. Available in 100mm-1000mm (in 50mm increment). Reel length 10m.

#### Arbosil 1070

A one part Low Modulus Fire Resisting Silicone Sealant which cures on exposure to moisture vapour to form a very elastic silicone rubber. It has good adhesion to concrete, brickwork, metals and many other common construction substrates.

#### Arbosil 1071

A one part Low Modulus Fire Resisting and Acoustic Silicone Sealant which cures on exposure to moisture vapour to form a very elastic silicone rubber. It has good adhesion to concrete, brickwork, metals and many other common construction substrates.

#### Arbo XL1075

A one part Acoustic, Fire Resistant Acrylic sealant. Tested in joints up to 50mm, offering up to 4 hours fire resistance in certain application conditions. When subject to flame, Arbo XL1075 will intumesce, blocking the passage of fire and smoke.

## Introducing ARBOShield Pro Class A Fire-Resistant Façade System

Get ready to experience a revolutionary breakthrough in fire protection – the ARBOShield Pro Fire-Resistant Façade System, a total solution that will elevate your projects to new heights!

The new ARBOShield Pro system delivers

**Unmatched Performance:** With Class A reaction to fire and unbeatable W1 water resistance, ARBOShield Pro delivers the highest level of protection against fire and the elements.

**Easy Installation:** ARBOShield Pro brings you a hassle-free experience with fire-rated membranes and self-adhesive EPAM perimeter seals. Save valuable time and effort valuable time and effort as well as reducing on-site waste, while achieving superior results.

**Versatile Applications:** Whether you're working on a new build or a refurbishment project, ARBOShield Pro fits like a glove in commercial, industrial, residential, and retail environments. From curtain walling to off-site construction, we've got you covered!

**Total Integration:** Embrace the power of synergy with our comprehensive range of associated products. From tried and tested silicone sealants to modified polymers and adhesives, alongside EPDM membrane systems.

## ARBOShield Pro Class A Self-Adhesive EPAM Perimeter Seal

The new and unique ARBOShield Pro External Perimeter Class A Membrane (EPAM) combines an industry leading self-adhesive, Class A2-s1,d0 fire protection along with a complete waterproofing and airtightness window and façade seal all in one product.

- Self-adhesive – speeds up installation and reduces on-site waste
- Class A reaction to fire
- W1 Resistance to water penetration

Download

## ARBOShield Pro Class A W1 Breather Membrane

ARBOShield Pro Class A W1 Breather Membrane is an extremely vapour permeable wall membrane with a low emissivity reflective surface and Class A2-s1,d0 fire classification.

- Class A reaction to fire
- W1 Resistance to water penetration
- Reflective surface to assist with improved u-value calculations and can help reduce solar gain

Download

## ARBOShield Pro Class A Air & Vapour Control Layer

ARBOShield Pro Class A Air & Vapour Control Layer is a high performance air and vapour control layer featuring a low-emissivity reflective surface designed to combine Class A2-s1,d0 fire classification with high tensile strength and enhanced thermal performance.

- Class A reaction to fire
- Improves overall u-value and energy efficiency
- Controls vapour transmission from within the building

Download

## ARBOShield Pro Class A High-Tack Sealing Tape

ARBOShield Pro Class A High Tack Sealing Tape has been specifically designed to provide a strong and resilient seal when secured against a membrane lap or detailing such as window and/or door openings.

- Class A reaction to fire
- Maintains Class A rating when used to repair damaged membranes
- UV resistance up to 6 months

Download

## ARBOShield Pro Class B W1 Breather Membrane

ARBOShield Pro Class B W1 Breather Membrane is an extremely vapour permeable wall membrane with Class B-s1,d0 fire classification.

- Class B reaction to fire
- W1 resistance to water penetration
- Compatible with almost all substrates
